Village News

Paintearth Regional Waste

We had another successful hazardous roundup this year and want to give a big thank you to the Fire Depts. of Halkirk, Castor and Coronation. We wouldn't have a successful roundups without their continued support year after year.

Thank you very much!

Pilot Project

Silage Plastic and bale wrap

Coronation has been selected to start the pilot project and with its success we can hopefully also include Castor soon. We have the compact machines on site and inside the big shed now. Please note the silage plastic needs to be folded into 4x4 squares, as they need to be handled by hand on our end and the processors.

Please look at clean farms website for folding instructions or ask the attendant for help.
